Languages & Tools

Python, C++, OOPs, JavaScript, HTML, CSS, Git, VS Code, Vercel (basic deployment)

Frameworks & Libraries

React.js, Node.js, Express.js, Tailwind, Authentication & Authorization (JWT)

AI & Data

Basics of AI/ML, Prompt Engineering, LLM Fundamentals, Data Handling with Python, AI API Integration (OpenAI / Gemini), Experience with ChatGPT & Google Gemini

Databases & API Development

MongoDB, MySQL, REST API, API Integration, Postman

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science (percentage: 70.1% up to 7th semester),
Noida Institute of Engineering and Technology (NIET)
2022 – 2026 | Greater Noida

Senior Secondary (XII), CBSE (percentage: 75%),
BLS International School, Hathras
2022

Secondary (X), CBSE (percentage: 74.33%),
Rajendra Lohia Vidhya Mandir, Hathras
2020

ACHIEVEMENTS

Solved 100+ DSA problems across LeetCode (80+) and GeeksforGeeks (50+), improving problem-solving speed by 30%.

Built 8+ projects with optimized performance and clean code, improving development efficiency.

PROFESSIONAL EXPERIENCE

LLM Intern Trainee (Paid), Ethara AI
2026

- Working on LLMs and AI-powered applications in an ongoing internship.
- Involved in prompt design, optimization, and evaluation of model outputs.
- Learning LLM behavior and real-world AI use cases.
- Collaborating on AI automation and intelligent system ideas.

PROJECTS

E-commerce Web App, MERN Stack, Tailwind CSS

- Problem: Users needed an efficient platform to explore and manage products.
- Solution: Built a responsive full-stack E-commerce application using the MERN stack with a modern UI.
- Developed frontend using React.js and Tailwind CSS for clean, responsive, and mobile-friendly design.
- Designed product cards, cart interface, and Add-to-cart functionality for a complete user journey.
- Backend development in progress: integrating MongoDB, Express, and Node.js for real-time data handling, product storage, and user management.
- Impact: Improved product discovery and set the base for dynamic data, auth, and payment integration.

NOTES Web APP, MERN STACK, Tailwind CSS

- Problem: Needed a secure and responsive notes app with user authentication.
- Solution: Developed a full-stack MERN app with:
- User login/logout and JWT authentication.
- CRUD features to manage personal notes.
- Fully responsive UI using Tailwind CSS.
- Impact: Improved personal branding by making projects easily accessible to recruiters.

CERTIFICATES

- ReactJS - Infosys Springboard
- Introduction to AI - Coursera
- Python for Data Science, AI & Development - IBM
